Gimbals with Native or Arca-Compatible Mounts

DJI's newer RS series use a quick-release plate that *accepts Arca-Swiss plates* when equipped with the proper plate (RS4/RS4 Pro & RS3/RS3 Pro/RS2/RSC2 all have compatibility via integrated system or mount adapters).

- **DJI RS4 / RS4 Pro** — native quick-release system supports Arca-Swiss standard plates (no separate adapter needed)
- **DJI RS3 / RS3 Pro** — Arca-Swiss compatible via quick release interface.
- **DJI RS2** — compatible with Arca-Swiss plates using the RS2 quick-release interface.
- **DJI RSC2** — smaller gimbal that works with Arca-Swiss through adapters/plates.

Arca plates / adapters that help make these gimbals Arca-ready:

- **SmallRig Quick Release Plate for DJI RS 2 and RSC 2 Gimbal** – Arca-Swiss plate that fits RS series gimbals, so you can dock on Arca tripod heads/cages without swapping camera plates.
 - **NICEYRIG Arca-Type Quick Release Plate for DJI RS Series Gim** – budget Arca-type plate to add compatibility.
 - **NICEYRIG Arca-Type Quick Release Clamp for DJI RS Series Gim / NICEYRIG Arca-Swiss Quick Release Clamp** – clamps/adapters to add Arca-Swiss mounting where needed.
-

Tripods & Tripod Heads with Arca Mounts

- **Neewer GM-MT Arca Type Tripod Ball Head** – compact Arca-type ball head.
 - **360° Mini Panoramic Tripod Head** – lightweight Arca-ready head (great for lighter setups).
 - **K&F Concept Tripod Fluid Head** – fluid head with Arca-Swiss clamp (smooth panning).
 - **Tripod Head for Camera with Arca Swiss Quick Release Plate** – affordable Arca-Swiss tripod head.
 - **Arca Swiss D4 Geared Tripod Head** – high-end geared head with Arca-Swiss compatibility.
 - **Arca Swiss C1 Cube Classic** – professional Arca-Swiss head (great for studio work).
